Geology of Greenland

Jens Heinrich, political consultant,
Inuit Ataqatigiit Folketingimi

historical perspective

”... the question of oil and mineral extraction will be in focus in the coming meeting ... extraction of uranium from Kvanefjeldet, extraction of iron from Godthåbsfjorden and drilling and extraction of oil, which supposedly are to found off the West Coast of Greenland.” (danish newspaper, 1975)

Cryolite mine, Ivittuut, South Greenland
